Chapter 1 by Tomio Fujino

Oh no. Oh no oh no oh no this is bad. Welp, there goes my promotion (and my boss's life). I possibly should've open the airlock before releasing the trash disposal. I honestly blame the engineers that designed it so anyone at the front door would be blasted to the infinite beyond by trash. I guess it would be helpful if we had to deal with door-to-door salesmen, if there were any that visited the lunar base research lab. Oh man, I don't know how to operate a simple hot plate, much less as space station in it's entirety! What will I tell the resupply crew coming in 4 days? I'm just a apprentice, a journeyman if you will. To be or not to be 100% useless, that is the question...

Chapter 2 by Geneva Collins

I'm gonna have to tell them something! I could say that there are, in fact, moon men, and they attacked the base, kidnapping my commander. Yeah, that'll work! Okay, maybe not. Hey, maybe the trash didn't kill him. Maybe he's out on this god-forsaken Rock somewhere under a pile of trash still breathing. I mean, there's a chance, right? Maybe I should go look for him. The least I could do is bring his body back for a proper funeral... But he's probably fine. Yeah, just fine. I'll just grab a space suit and a rover and go find him. I've got four days.

jail but it's okay.

NO IT'S NOT OKAY! I have to make something up but what should I say?

Chapter 4 by Luca

I thought about making an excuse about how this happened, but what I did surprisingly notice when I was mindlessly walking around and around in octagons, (no, not walking around in circles, but octagons) that there was a time bomb! I quickly panicked in fright, what should I do?!

Chapter 5 by Karl Anthony

RUN RUN RUN RUN RUN!!!! FASTER!!! STUPID MOON GRAVITY!!! 3! 2!! 1!!!!... **DING!**

Ummm... What happened? Oh, phew. Thank God... It was just the microwave. The hot pockets are done! I can't wait to dig i- wait a second... What's that!?

Chapter 6 by Grace K

Oh. My. God.

Chapter 7 by ArchAngel

FIRE! FIRE! Why is the pan on fire?! Okay, don't panic! Deep breaths, water, I need water. Oh my god, why is this tap taking so long?! I could go off and make a cup of tea while I'm waiting! Okay, stand back, throw the bowl and... Aaaaaaaaargh! It's exploded!!! Aaaaargh, rain of fire! I think I've lost my eyebrows, I can't feel my eyebrows, this is bad, I'm going to look so weird, and... and the ceiling is on fire. RUN RUN!!! Quick, shut the door! That was a close call. ...where's a mirror and a marker pen? Note to self, never use massage oil to cook fries, and I spent forever chopping those hydroponic experiment potatoes, what a waste. Huh? what's that noise?
